

I

## FIRST PHASE

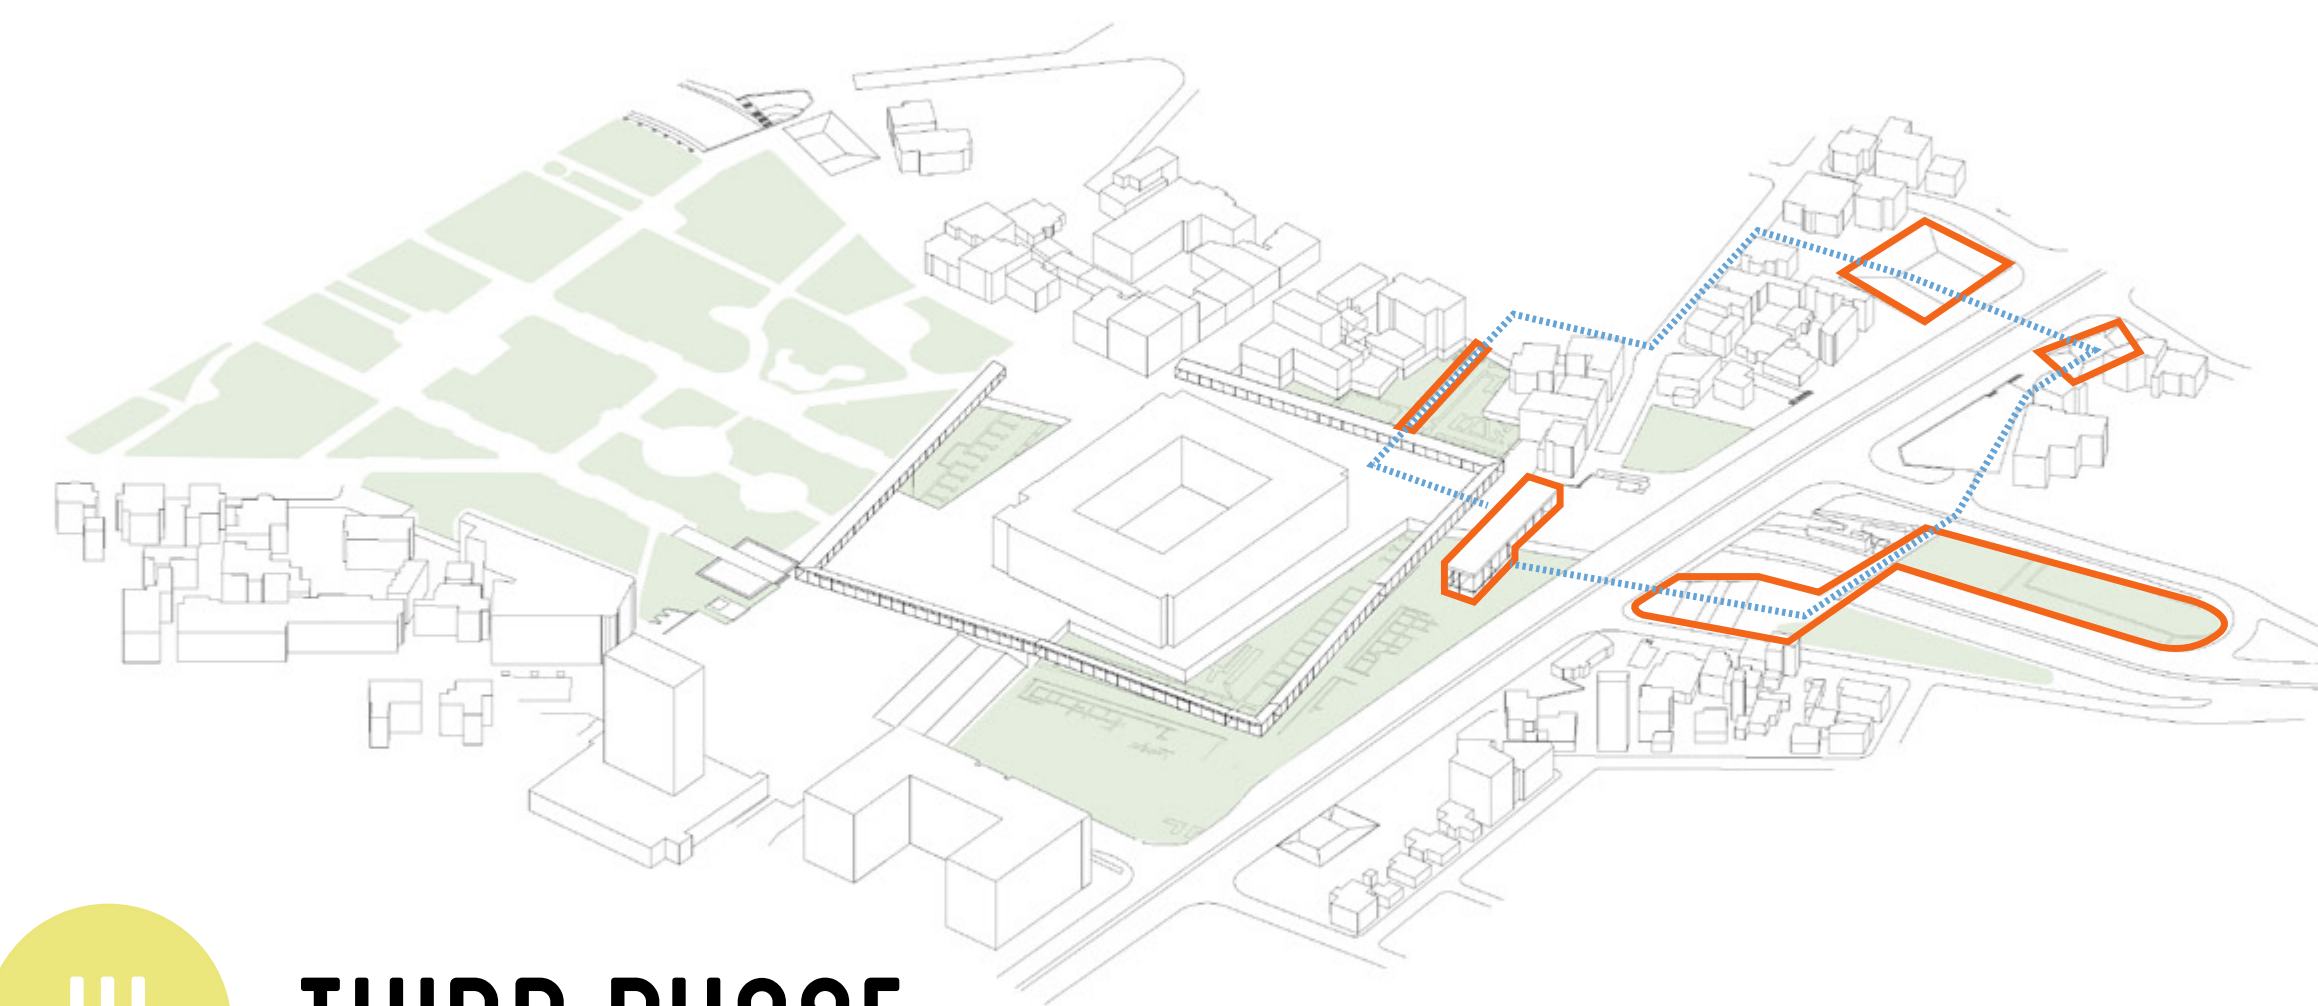

- Enlarging the excavation of the east forum and redevelopment of the east access of the square with the direct passage through the archaeological area.
- Careful restoration of the three archaeological sites and integration of a new night illumination scheme.

II

## SECOND PHASE

- Redevelopment of the area above Gladstone St. (covering the street on the east side, enlarging the park on the west side).
- Creation of a pedestrian covered walk "the ribbon" to connect the three archaeological sites.

III

## THIRD PHASE

- Development of the connections that lead to the visit of the second "loop" (Great Basilica, archaeological underpass and back through the northern fo).
- Construction of the museum hub as the junction and entry point between all the archaeological sites.
